The Book **of** **Common Parking** Revised Standard Version

The Vestry of St. Paul's Church recognizes the difficulties that many parishioners experience in obtaining parking on Sundays and offers this guide to assist. Kindly keep in mind the following recommendations:

- ❖ The St. Paul's parking lot should, in general, be used by those with special needs...elderly, families with infants and toddlers and the physically impaired...as well as visitors and newcomers.
- ❖ A walk from one of the outlying parking areas can provide an opportunity for reflection and personal preparation for the service. Also, walking is good exercise. Please take advantage of all parking opportunities.
- ❖ In some cases prayer may be helpful in locating a *good parking spot*, but overall the best strategy for finding a preferred spot: **ARRIVE EARLY!**
